The first week of practice was used for conditioning and fundamental drills. This week a start will be made on position decisions of the boys and team offensive and defensive practices will begin in earnest.

Seniors To Sell Christmas Cards

The Senior Class of Grayling High School will sell Xmas cards starting Wednesday, Nov. 13. They will canvass the town house to house. These Xmas cards are unusual, inasmuch as they are put out by the Easter Seal society to help Jim Wood who is a paraplegic. Jim is 40 years old. He has seven children in school and smaller. He had polio and is now in an iron lung part of the time. He paints these pictures with a mouthstick as he is completely paralyzed and does not have the use of his hands. By buying these cards, you are giving Jim 65c for each box. The Senior class will be making 50c on each box, and the Crippled Children's society will get the other 35c to cover cost of cards and the balance for the Crippled Children's camp fund. I am sure you will not feel \$1.50 is too much for these nice cards and especially when you know you will be helping this man support his family. Any one who tries so hard, should be lent a helping hand.

Mr. and Mrs. Dale Hatt of the Hatt Motel were formerly from Charlotte where Jim lives, and Mrs. Hatt tells me there never has been a nicer family, a more closely knit family, or a finer man in general and certainly deserves all our help. Please buy at least one box of cards from the Seniors and you will find Jim's picture painting with his mouthstick in the package. If you are not contacted you may also pick up a package at Gould Cleaners and the Seniors will still get their share. Christmas. Lora Gould, Crippled Children Society, Chairman.

TO HOLD POTLUCK SUPPER
The Beaver Creek Hobby Club is sponsoring a potluck dinner to be held at the Beaver Creek Town Hall on Nov. 26, starting at 6:30 p.m. There will be supervision for the children, and cards and games after the supper. Please bring a dish to pass, and let's all get together. Everyone welcome.

The newly constructed Kellogg's Bridge over the North Branch of the AuSable River east of Grayling is now open to all traffic, it was announced on Monday by Bruce Carlson, engineer-superintendent of the Crawford County Road Commission.

The bridge was first opened to traffic on Friday. It is open to traffic as well as passenger cars and there is no weight restriction. Any load that can be legally hauled over the highway may be taken over the bridge, Carlson stated.

The new single span bridge is 50 feet long with a 30-foot wide-driving surface which easily handles two lanes of traffic. It replaces an old single lane bridge, which was of a twin span design. The new structure is not only a big improvement to the traveling public but is a vast improvement for canoe and boat traffic going under the bridge.

The City has just recently finished remodeling the Elmwood Cemetery Chapel pictured above. The roof has had a coat of roofing material which was badly needed as several leaks had developed. Also, repairs were made to strengthen the roof structure. The entire building was given a fresh coat of paint on the outside. The entrance was changed by building a canopy over the door and the doors were remodeled and repaired. A new cement walk was laid. The glass blocks in the windows were repaired and shrubs were planted. The interior has been completely redone. Paneled wallboard was placed on the walls, a new patterned ceiling of acoustical tile was applied, draperies were hung, and a new gas heater installed. This Chapel is now an asset to the City and can be a comfort to those who must use it during the winter months. — Harold S. Cliff, City Manager

See Good Kill

Hunters Arrive For Deer Opener Friday

Barring a bad break from the weather, buck kill should be comparable with last year. Department game men look for hunters to take 17,000 bucks in the upper peninsula and 36,500 in the northern lower peninsula. A harvest of about 4,000 antlered whitetails is forecast in the southern lower peninsula.

As last year, Michigan's firearm deer season will have two openers — Nov. 10th in the upper peninsula west of M-77, US-2, and a line extending south from Gulliver to Lake Michigan, and Nov. 15 elsewhere in the state. The season will run the usual 16 days in both areas, the last day of action being Nov. 25th in the western upper peninsula and Nov. 30 throughout the remainder of Michigan.

The November-bear hunting season will also fall in line with the different opening and closing dates for these two areas.

Deer killed wearing plastic or nylon collars should be reported to Conservation Department field men to help in a new study on whitetail movements.

Department game men would like to know the band number attached to the collar of each deer killed, the place where each whitetail was taken and the sex of the animal.

If possible, they would like a chance to examine the marked deer at the Department district headquarters in the upper peninsula, road side biological checking stations and wildlife experiment stations.

An all-out effort will again be made by the Conservation Department immediately before and during this month's firearm deer season to minimize game law violations and provide maximum hunter services in northern Michigan.

As in the last two seasons, men from the Department's various divisions will team-up with conservation and fire officers to double the number of patrol units normally available for game law enforcement in the upper and northern lower peninsulas.

Ground units, equipped with two-way radios, will receive support from Department pilots who will report on hunter concentrations, search for lost hunters and unre-

Red Cross Drive Short of Goal

The first phase of the Red Cross drive for funds and members in Crawford County shows \$837.21 collected to date toward the quota of \$1971.00. There are some areas yet to be heard from Jess Skinner and Mrs. Leo Jorgenson, co-chairmen of the drive report.

The drive in Frederic, headed by Mrs. Juanita Ennis, netted \$77.80; the Lovells area, in charge of Mrs. Ethel Morris, collected \$32.00; Mrs. Arthur Wakeley reports \$10.00 from the Wakeley Corner area and Mrs. Ken Wyman \$5.00 from the other section of Beaver Creek.

The Home Extension Group in Maple Forest has consented to call on those in that area.

It must be remembered that \$500.00 of the quota to be raised is to pay for a blood program in Crawford County, so please be generous.

If you have been overlooked and wish to help Red Cross help others please mail your contribution to Mrs. Leo Jorgenson or leave at the Avalanche office.

Three Injured In Accidents

Three persons were injured in two separate automobile accidents in Crawford County over the past week. The first occurred on US-27 at Fletcher Road at 3:50 p.m. last Thursday afternoon.

A car driven by Thomas Denno, 22, of Grayling was proceeding east on the Fletcher Road and failed to see a car approaching from the south headed north on US-27. The car was driven by Wilson Wilcox, 19, of Marlette. Both drivers received head cuts in the ensuing collision and were taken to Grayling Mercy Hospital for treatment.

The accident was investigated by troopers from the Houghton Lake Post who issued a summons to Denno for failing to yield the right of way.

The other accident occurred on the McMaisters Bridge Road about one mile north of the bridge at 3:20 p.m. Monday afternoon. Troopers from the Gaylord Post policed the accident.

A car being driven south on the McMaisters Bridge Road by Don Wm. Lebzelter, 45, of West Branch went out of control when he applied the brakes and skidded off the highway and into a Crawford County Road Commission dump truck being driven by Joseph A. Bielski, 55, of Grayling. Investigation officers stated that the dump truck coming out of a trail road had stopped at least six feet off the highway.

Lebzelter had plenty of room to pass by if he had kept control of his vehicle. The West Branch man received injuries and was taken to Grayling Mercy Hospital for treatment.

Name First Honorary Grayling Fire Chief

The first honorary Fire Chief named by the Grayling Fire Department is Louis Legg of Roscommon, who received a fine rifle along with his honorary position. Badges and helmets for these honorary officers have not yet been received by the Department, but they are expected to be on hand in the near future.

At Monday's meeting of the Department several promotional ideas were discussed as additional means of raising funds for the planned Fourth of July celebration. Among them was a Swiss steak dinner and donkey ball game. The Department would welcome any ideas others might have along these lines.

The Welsh Motor Sales has come up with a promotional idea in which anyone who purchases a car, used car or new one, from Welsh's, will receive free tickets towards becoming an honorary Fire Chief. Further information may be had from the Department or Welsh Motor Sales.

Winners of the Thanksgiving dinners will be notified by Nov. 22 and delivery will be made on the 25th, the Department reminds us.

O. E. S. INSTALLS NEW OFFICERS

About 100 persons attended the open installation of officers of Grayling Chapter No. 83, O.E.S., Saturday evening, October 26th. The Chapter room was beautifully decorated with bouquets of yellow roses and colored tapers appropriate to each of the 5 points of the Emblematic Star.

Guests were presented from Gaylord, Pellston, Vanderbilt, Roscommon, Honor, Weidman, Saginaw and Lake Orion.

Worthy Matron Bea May welcomed the guests. Flags were presented and grounded in the East. June Feldhauser sang "How Great Thou Art." Worthy Patron John L. Martin and his wife Mabel Martin, Past Matron, presented a new plastic sheaf for Ruth's station which was accepted by W. M. Bea May in behalf of the chapter.

Seek Change Of Highway Designation

Petitions are being circulated in Crawford County seeking to change the designation of the former main highway route north and south through the area from Old US-27 to M-27, it has been reported.

Circulators state that they have signatures from approximately 90 percent of the land owners fronting on the highway from the north city limits of Grayling through Frederic.

The effort is being made from Grayling north to Indian River to gain as many signatures as possible which when completed will be presented to State Highway Commissioner John Mackie. Those pushing for the change state that the designation as a state highway will make it easier to advertise the route to vacationers as a scenic route and will get more cars off the expressway and back on to the old route.

The Hideout on Big Creek was occupied last week by Mr. and Mrs. Harold Longdyke and daughter Doreen. The hail and snow were somewhat a change for Mrs. L., who had just returned from a month's vacation in California and Mexico. Doreen returned home with the memory of seeing her first snow at the cabin, this being her first trip outside of the summer season.

Mr. and Mrs. Harold F. Longdyke are once again grandparents. Their seventh grandchild, Robin May, was born to their son Harold and his wife Gloria, arriving September 25th and weighing in at 6 lbs. 12 oz.

A good pass receiver will score nearly every time he can get in front of the competition and hang on to the aerial.

And, getting out in front requires that extra effort that many champions seem to possess.

There are champions in the field of business, too. The leading merchants in our town, for example, have earned their position in the community because they give

that "extra effort" whenever it is necessary.

This effort involves such things as service, integrity, and guaranteed satisfaction.

The established local merchant is a valuable part of the "home team." He is dependable and reliable, and often way out front in participation in community activities.

Get to know your local merchant. He's a good team man.

Job Maker . . .

Of what use are profits?

There's a quick and easy answer. You can say that profits benefit the owners of businesses, large and small. So they do — though it is a fact, according to various public opinion polls, that the percentage of profit earned by typical enterprises and whole industries is lower than is generally believed.

That aside, profits have another extremely important use. They make jobs.

A brief editorial and statistical graph in the August issue of Nation's Business tells the story concisely. Its substance is this: "When profits are low, unemployment is high. When profits are high, unemployment is low. In short, profits make jobs."

The graph — which covers the 1954-1962 period — bears out these words. When profits are squeezed down, unemployment rises. When profits are adequate, unemployment declines.

Yes — profits make jobs.

Government As A Censor . . .

Few people probably know it, but to quote Editor Publisher, "The U. S. Government has entered the business of collecting and disseminating news in competition with private news agencies."

The arm of the government involved in this disturbing and unprecedented enterprise is the Department of Agriculture. On the first of August, it inaugurated a marketing news service over a national leased wire telephone network. The significance of that is found in a protest filed by the American Newspaper Publishers Association with the Federal Communications Commission: "An expansion of this concept would result in a government-controlled news service such as presently exists in some other countries including the Soviet Union, where the so-called news service Tass is government-owned and operated." The FCC answered that it has without jurisdiction, and the matter has been passed on to the Secretary of Agriculture.

Whatever the final result, the very real dangers inherent in this step should be universally understood. To quote Editor & Publisher once more: "A govern-

ment, or official, news agency is the last thing we want in this country. It could lead to attempts by other government agencies to enter the same area and this particular endeavor would put the government in the censorship business in an odious form."

If you think those words are too strong, a statement by the Department of Agriculture itself should resolve your doubts. It "reserves the right to cancel at any time the connection of any and all subscribers who abuse the service by misrepresentation of reports, or for any other reason when, in its sole judgment, such cancellation is desirable." That can mean only one thing — a user of the service is warned to go along with the Department of Agriculture line, whatever it may be, or be prepared for punishment.

This is no small matter — after all, great oaks from little acorns grow. And if government is to disseminate news, what power would be left to prevent government from doctoring and warping news as it sees fit?

Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE FILES OF THE AVANCE OF 23 YEARS AGO

Nov. 14, 1940

The cold wave and storm of Monday forenoon was followed in mid-afternoon by wind gales that started trouble that wrecked trees, buildings and interrupted power lines all over Crawford County. The heavy winds started at 3 p.m. and didn't let up until the following morning. Downtown signs were torn from their fastenings, trees leaned over until some upturned from the roots, some falling across power lines, barns were wrecked and twisted and in one instance a roof was blown completely off its structure. Grayling electric lines were damaged at 5:32 p.m. near the James McDonnell home north of town, putting the city out of electric service for 40 minutes. Later in front of the Mrs. Herb Gothro home a huge poplar tree fell across power lines further complicating the service. These had to be cleared away before service could be resumed. All along the highways leading out of the city scores of trees lay uprooted. Several beautiful pine trees near the Ralph Collen home at Lake Margrethe suffered similar fates. The roof of the Dr. VanVleet store at Lake Margrethe was completely blown off and lay flat on the ground. There were trees down wherever one might look. At the Hartwick Pines all along one edge trees were laid flat and others leaning far over. Nearly 500 trees are reported down. In the city the Mrs. Hartley Grocery store was damaged when the wind ripped off the false top and did slight damage to the roof. One of the plate glass windows at the Burke Garage was blown in as was also one at the Charles Mosher service station. The barn at the former Cobb farm in Maple Forest was flattened and also the barn of James F. Knibbs in Maple Forest was badly twisted and ruined. At a summer home on the AuSable while the family happened to be in ready for the opening of the deer hunting season the chimney of the fireplace was completely blown down. The Michigan Public Service Co. lines too were disrupted and the communities between here and Cheboygan were without service for some time. We understand that at Gaylord the service was off until noon of the following day. Frederic was in complete darkness and without service for a couple of days.

Sam Smith, who is employed in Pontiac, was in Grayling over the weekend and returning was accompanied by his wife and children, and they plan to take up their residence in Pontiac.

Mr. and Mrs. Glenn Penrod returned home Sunday after a six weeks absence. Mrs. Penrod had spent the time visiting her mother Mrs. Mary Shields in Detroit, while Mr. Penrod enjoyed hunting at Houghton Lake.

Howard takes his own pictures and develops his own films and his pictures are always excellent. These 16 colored pictures are especially outstanding.

Mr. and Mrs. Francis Heath and Mr. and Mrs. Burton Welte were in attendance at the bridal reception for Mr. and Mrs. Geo. Stanley Saturday evening given at the home of the bride's parents, Mr. and Mrs. James DuBois in Vassar. About 80 relatives and friends were present to extend congratulations to the couple.

Albert Denewett, son of Mr. and Mrs. Henry Denewett, was united in marriage to Miss Doris Shellenbarger of Detroit, Nov. 2. The ceremony was solemnized at Gaylord, the Reverend Epps officiating. The couple will reside in Grayling and have the best wishes of many friends.

Port Benning, Georgia, was the scene of the marriage of Effie Pauline Schoonover, daughter of Mr. and Mrs. Jess Schoonover, to Lieut. Wm. C. Tufts, Jr., son of Mr. and Mrs. Wm. C. Tufts of Sparta, Wis. The ceremony took place at 7 o'clock Wednesday evening, Nov. 6 in the chapel there and the chaplain of the Fort was the officiating clergyman. Present at the ceremony were the bride's parents, who accompanied their daughter there a few days previously. The bride, born in Grayling, is a graduate of Grayling High school and of St. Mary's school of nursing in Grand Rapids, while the groom was graduated from the University of Wisconsin and he is also a graduate of the Infantry school at Fort Benning. The couple is making their home there.

Mrs. Roy Lovely was honor guest at a birthday party Wednesday evening at the home of Mrs. Paul Lovely, when several of her friends gathered there for the evening. Tables of pinocle and buncos were in play, with Mrs. Robert LaMotte and Mrs. Lwlyn Doremire holding honor scores for pinocle and Mrs. Sherman Neal and Mrs. Roy Lovely for buncos. A potluck lunch was served the guests and Mrs. Lovely was presented with a gift.

Mr. and Mrs. F. J. McClain were hosts Saturday evening at the potluck dinner that the several families at Lake Margrethe enjoy weekly. The members of the Loyal Order of Moose and their families and friends enjoyed a box social Saturday evening at their temple. Seek Real Reason For School Student Drop Outs

ARE SCHOOLS WRONG?

A bad attitude may not be entirely to blame for a youth's decision to drop out of high school before he completes the four years. This is the conclusion of Ken T. Bement, Burroughs Corp. vice president. Bement notes that a youth who concludes that the school will not adequately use his potential to prepare him for the next half century of his working life may be right.

"Our schools, reflecting the wishes of parents, emphasize academic subjects, glorify the undisputed virtues of higher education, and under-staff, under-finance, under-program, and under-value vocational training," he said.

Bement has expressed his view on the dropout problem to educators on a number of occasions so it is not being thrown to the wind as criticism without construction. "We have been and still are victimized by the fixed idea that our schools are intended to produce college students," he says. He urges that "equal time" be devoted for vocational training of the 70 per cent of high school students who do not go on to college.

Bement contends that unlike the "old days when a wood shop and metal working shop would suffice," today schools need a dozen or more highly specialized, up-to-date shops to train needed technicians and specialists.

Realistically, Bement admits the cost of adequate vocational training facilities is beyond the means of the vast majority of schools even with federal aid.

He said one alternative to this problem could be the creation of "area schools equipped and staffed to offer specialist training and technical training for a large geographic unit."

"Man must keep pace with his invention," said Bement. "We can neither afford nor can we tolerate a tomorrow in which a skilled elite dominates a technologically illiterate mass."

"Our only assurance that future generations will live as free men in a peaceful, abundant society is our ability to teach and to train this and future generations in the technical skills and sciences that make man the master of his creation."

THE BIG DRINK

Liquor is a big business in Michigan, especially during the forthcoming year-end holiday period.

The Liquor Control Commission has ordered more than \$26 million worth of alcoholic beverages for the annual holiday sales spurt. Commission Chairman Don S. Leonard said the purchase recommendation for the holidays totaled 878,425 cases. This was about 23,000 cases more than were sold in the last two months of 1963.

Justification for the increased purchases this year probably can be seen in Commission report which showed that late-summer sales this year were up more than 7 per cent over the same period of 1962.

CHILD KILLERS

Vaccines are available for most of the childhood diseases today, but the leading killer of children goes unabated, according to Dr. Goldie B. Corneliuson of the State Health Department.

"It's too bad we don't have a vaccine to protect against accidents," notes the director of the maternal and child health division. "Immunizations have reduced childhood diseases to the lowest point in history, but accidents are continuing to take a needless toll of life."

In the age group of 1-15 years, accidents last year killed 472 Michigan children. This represented more than one third of the deaths from all causes in this age group.

"We know that accidents don't 'just happen' the Health Dept. spokesman said. "They are the results of sequence of events: a chain reaction. If we are aware of the factors that lead up to accidents we can do a great deal to prevent their occurrence simply by eliminating one or two of the links in this chain."

For example, Dr. Corneliuson noted that most childhood acci-

dents occur in the late afternoon, when children are apt to be tired and hungry, and a mother's attention is on preparing the evening. The stress present to the mother daily is also great at this period. She may be hungry, tired, or in a hurry.

"Half the battle in preventing childhood accidents in knowing the danger signals, and taking extra precautions during critical times," she said.

Home Extension News

Mrs. Jennie McEvers gave the lesson on altering ready-mades. Mrs. Mike Cherven of Roscommon gave the lesson on artex painting. The next lesson will be on Christmas breads, with the meeting on November 26.

MOOSE NEWS

The lodge will sponsor dinners starting Thursday evening, Nov. 14. Serving will be from 6 p.m. till 7 p.m. The menu will include steaks, chops, chili, and almost anything a hungry stomach will want for a real "fill up." On Friday morning, Nov. 15, a lumberjack style breakfast will be served starting at 4:30 a.m. Funds from this breakfast will go to the Grayling Ritual team. All meals will be in the basement of the lodge, located at 305 Peninsula Street.

In last week's column, we mentioned a famous person coming to town. Well! Here it is! The world famous hypnotist, Dr. Kit, will be at the school gym on Wednesday, Dec. 4, and Thursday, Dec. 5. He will present a two and a half hour show each night, of constant, hilarious, wholesome entertainment for the whole family. Tickets are only \$1.25 for adults and 75¢ for students. Pre-school children are free. This show was in Cadillac the past week. Gov. Alfred Hanson, and Treasurer, John Galloway went there to see it, and haven't stopped laughing yet. Gov. Hanson said he never laughed so hard in his life. They both reported it was about the greatest show they have ever been to. They wouldn't miss it here for anything. Now, advance tickets are on sale at the club, and from any woman of the Moose. Tickets will also be available at the door both nights. From the sound of things, it would be a good idea to get the advance tickets to be assured of a seat.

We have some interesting projects and some very important ones coming up on our civic affairs program. Any member interested in helping with these can contact Butch Foster.

Friday is the 3rd Friday of the month so this is meeting night. All members should attend as this is an important meeting. Meetings are held the 1st and 3rd Friday of each month in the lodge room at 8 p.m. The first meeting is social, and the 2nd meeting a business meeting.

SEE YOU THERE.

SCHOOL BAND NEWS

This year's marching season is over and the band is setting down to some serious concert practice. Last week the band had its annual candy sale, the profit from which is to go towards new uniforms. There are several new band members, Nancy Brown on flute and Mary Gardiner and Louella Millikin on the horn. We are happy to have Darlene Portwood, our first chair clarinet, back with us. On Saturday, November 9, the band made a trip to Central Michigan U. for the university's Homecoming. The parade started at 12:30 and three bands took part, from East Jordan, Mt. Pleasant and the one from Central. The parade also included two drill teams and beautiful floats. The Central Chips met Northern Illinois in their homecoming game which lasted from 2 to approximately 4:30. Central's band put on a magnificent halftime show. There was also a parade of the homecoming queen and her court. Unfortunately Central was defeated by a close score of 27-22.

In spite of the rain the band members had a lot of fun on this trip. From a trip of this kind a band can learn much. By watching other bands we are able to get new ideas plus standards and goals to achieve.
